THE UNIVERSITY of EDINBURGH

Degree Progression Requirements from our International Foundation Programme

Listed below are Undergraduate degrees programmes available in the 2027/8 academic year.

A full list of degree programmes can be viewed on our online undergraduate degree finder for the current admissions cycle in progress. The exact degree programmes available in the year that you progress from one of our International Foundation Programme Pathways to undergraduate degree study may change. These will be published ahead of your progression in the 2028/9 academic year.

Whilst studying our International Foundation Programme Pathways you will receive dedicated support and guidance from our IFP support team. If there are any changes to your planned progression degree programme, your dedicated IFP support team will guide you to a suitable, closely related alternative within the subject area.

Our three different International Foundation Programme pathways provide access to different subject groups of degree. You must be taking the correct pathway for the degree you intend to progress to, and select the IFP courses required to meet the progression requirements for that degree.

There may be other requirements for progression to some Undergraduate Degrees, these are also listed below.

College of Arts Humanities and Social Sciences

Business School

School of Divinity

School of Economics

Edinburgh College of Art, Edinburgh School of Architecture and Landscape Architecture (ESALA)

Edinburgh College of Art, School of Art

Edinburgh College of Art, School of Design

Edinburgh College of Art, School of History of Art

Edinburgh College of Art, Reid School of Music

Moray House School of Education and Sport

Edinburgh Futures Institute

School of Health in Social Science

School of History, Classics and Archaeology

Edinburgh Law School

School of Literatures, Languages and Cultures

School of Philosophy, Psychology and Language Sciences

School of Social and Political Science

College of Science and Engineering

School of Biological Sciences

School of Chemistry

School of Geosciences

College of Medicine and Veterinary Medicine

Edinburgh Medical School

College of Arts, Humanities and Social Sciences

The University regularly reviews our academic portfolio to ensure our programmes provide the education and experience our students expect. If there are substantial changes to any of our programmes being offered in your progression year your dedicated IFP support team will guide you to a suitable, closely related alternative in the subject area.

Business School
